NOTIFICATION OF INSPECTION FOR ASBESTOS CONTAINING  
MATERIALS IN PUBLIC SCHOOLS

The Environmental Protection Agency has issued a final rule, 40 CFR Part 763 Subpart E, Asbestos Containing Material in Schools. This rule requires all Local Education Agencies to identify asbestos containing materials in their school buildings and to take appropriate actions to control the release of asbestos fibers.

An Asbestos Management Plan for Sunray Elementary School has been completed and describes the results of the inspection, if applicable, and the action plan to control any asbestos found during the inspection. A copy of this plan is located in the administrative office of this school and at the Pasco County Schools Maintenance & Facility Services Department and is available for review upon request.
